Put your cybersecurity expertise on the map!

The European Commission is conducting a mapping of the existing centres of expertise in the field of cybersecurity (e.g. university department, research centre, etc). The results of this mapping will be translated into a "Cybersecurity Atlas" (an index of existing EU cybersecurity Centres) that will be made publicly available. This Atlas aims at becoming a valuable tool and a reference for the cybersecurity community to look for potential partners and pool resources. Are you a center of excellence in the field of cybersecurity? Then register before 15 February 2018!
